PROFESSIONAL SUMMARY

Detail-oriented and skilled B.Tech graduate in Information Technology with 1.5 years of hands-on experience in full-stack web development. Proficient in modern programming languages, frameworks, and tools such as ReactJS, React Native, Node.js, MongoDB, and AWS. Adept at building scalable applications, demonstrated through projects like Online Vegetables Shopping and Electronic Warehouse. Passionate about leveraging technical expertise to solve real-world problems efficiently.

EDUCATION

B.Tech in Information Technology

DharmSinh Desai University, Nadiad, Gujarat

July 2019 – May 2023

- Graduated with a strong foundation in IT principles and software development.
 - Degree Certificate: [View Here](#)
-

TECHNICAL SKILLS

- **Programming Languages:** C, C++, HTML, CSS, JavaScript, Tailwind CSS
 - **Frameworks & Libraries:** ReactJS, React Native, Node.js, Express
 - **Databases:** MongoDB, MySQL
 - **Tools & Platforms:** Git, GitHub, AWS (EC2, S3 Buckets, ECR, App Runner), Docker
 - **Experience:** 1.5 years across all listed skills
-

PROFESSIONAL EXPERIENCE

Full Stack Developer

Mindful Gurukul Pvt. Ltd., Gujarat, India

October 2023 – Present

- Developing and maintaining robust web applications using ReactJS, Node.js, and MongoDB.
- Collaborating with cross-functional teams to design and implement scalable solutions.
- Working on an AWS EC2 instance project, deploying and managing cloud-based applications, optimizing server performance, and ensuring high availability
- Enhancing application performance and ensuring seamless user experiences.

Web Developer (Internship)

Ficuslot Innovation Pvt. Ltd., Gujarat, India

December 2022 – May 2023

- Designed and developed responsive web interfaces using ReactJS and integrated backend APIs.
- Gained practical experience in Agile development methodologies.
- Internship Certificate: [View Here](#)

PROJECTS

Online Vegetables Shopping

Technologies: ReactJS, Node.js, Express, MongoDB

- Developed a full-stack e-commerce application tailored for vegetable shopping during the COVID-19 pandemic.
- Implemented a feature restricting orders below Rs. 250 for enhanced user convenience.
- **Source Code:** [GitHub](#)
- **Reports:** [View PDF](#)

Electronic Warehouse

Technologies: ReactJS, Spring Boot, MySQL

Developer Role: December 2022 – February 2023

- Built a warehouse management system with a responsive frontend and secure backend.
- Integrated MySQL database for efficient data handling and retrieval.
- **Frontend Code:** [GitHub](#)
- **Backend Code:** [GitHub](#)
- **Report:** [View PDF](#)

Skitii AI (Company Project)

Technologies: ReactJS, Node.js, MongoDB, AWS

Developer Role: October 2023 – Present

- Contributed to the development of Skitii.com, a dynamic web and mobile platform designed to provide an interactive and user-friendly experience.
- Built a responsive web frontend using ReactJS and Tailwind CSS, ensuring compatibility across devices and a modern UI/UX design.
- Developed a scalable backend with Node.js and Express, integrated with MongoDB for efficient data management and storage.
- Created mobile application functionality using React Native, enabling seamless cross-platform performance on Android devices with features like real-time updates and intuitive navigation.
- Deployed the application on AWS EC2 and utilized S3 buckets for static asset storage, optimizing load times and performance across both web and mobile platforms.
- Collaborated with the team to implement features such as user authentication, real-time updates, and consistent user engagement across web and mobile interfaces.
